

Declaration of Conformity (EU Packaging Regulation) Regulation (EU) 2025/40

HANSA-FLEX AG in Germany does not manufacture any packaging materials itself. All the necessary materials and products are purchased. In accordance with the EU Packaging and Packaging Waste Regulation (PPWR), we verify the compliance of all packaging materials used throughout our supply chain. We request individual declarations of conformity for the packaging materials we use from our suppliers, check them for compliance with the requirements of the Packaging Regulation, and archive these documents.

Packaging materials used and classification in accordance with Annex II of the PPWR

Packaging materials	Category as set out in Annex II to the PPWR
Cardboard boxes and bags, corrugated cardboard filling material	2 – Paper/cardboard packaging
Aerosols cans	4 – Metal - Steel and composite packaging of which the majority is steel
Plastic film and plastic film-based filling material, polystyrene filling material	9 – Plastic, PET-flexible
Adhesive tape	13 – Plastic, PP-flexible
Oil tank	14 – Plastic, HDPE and PP, rigid
Pallets (disposable and Euro pallets), stretch-wrap frames, custom-made wooden crates	20 – Wooden packaging, including cork

Compliance with Regulation (EU) 2025/40 (PPWR)

We confirm that HANSA-FLEX AG complies with the requirements of the PPWR, and we have incorporated the requirements set out in the PPWR into our processes and quality standards. This includes, in particular:

- promoting the safety, recyclability, reusability and resource efficiency of packaging,
- aligning packaging design with the PPWR's general sustainability objectives, as well as the
- supporting the objective of reducing the environmental impact of packaging.

As specific obligations may vary depending on the material, product application or customer requirements, no detailed statements regarding materials or specific products are provided.

The packaging materials listed are checked on a supplier-by-supplier basis; in other words, declarations of conformity are obtained for every product we use, and these are checked to ensure compliance with the PPWR. These documents are archived and updated at regular intervals.
